

RETScreen® Clean Energy Project Analysis Software Workshops January 19th and January 20 – 21, 2010 in Yellowknife

The Arctic Energy Alliance is hosting two workshops in January 2010 to introduce participants to RETScreen Clean Energy Project Analysis Software. RETScreen is a unique decision support tool developed by Natural Resources Canada with the contribution of experts from government, industry, and academia. It is available for download free of charge, and is used by more than 200,000 people around the world. (For more information on RETScreen, please visit the website at: <http://www.retscreen.net/ang/home.php>)

Introductory Workshop - January 19th: This is a free one-day workshop for new RETScreen users. It will cover how RETScreen is set up, how the modules interact and how to build a RETScreen model.

Energy Efficiency & Energy Auditing - January 20 – 21: The focus of this workshop will be on using RETScreen as an energy audit tool. Various energy technologies (e.g. lighting, motors, variable speed drives, pumps, compressed air, etc.) will be covered and there will be exercises and examples to familiarize participants with using the RETScreen Energy Efficiency module.

The instructor for both workshops will be Ivor F. da Cunha, B.Eng., MBA, P.Eng., President and CEO of LeapFrog Energy Technologies, Inc. Ivor has over 25 years of experience in strategic energy technologies, energy efficiency programs, project management and emerging energy technology implementation.

Registration Fees:

January 19, 2010 Introductory Workshop = **No Fee** (space is limited to the first 20 registrants)

January 20 – 21 Energy Auditing & Efficiency Workshop = \$200 + \$10 GST = **\$210.00***

***A travel subsidy is available for businesses located outside of Yellowknife.**

Registration fees must be paid by January 8, 2010. There will be no refunds after this date. For more information, please call the Arctic Energy Alliance at 867-920-3333 or toll free at 1-877-5855

Notes: Participants must bring a laptop computer to the workshops. RETScreen software is free and can be downloaded at <http://www.retscreen.net>.
